I can't get enough of this epic world. Full of danger, intrigue, and heady seduction, the Guild Hunter series is perfect! This is without a doubt one of my all-time favourite series, from the minute I pick up an of the books until the very last page I'm completely and utterly absorbed in the world and the characters and I never want the journey to end - Feeling Fictional Singh is one of those rare storytellers who literally never disappoints! - Romantic Times Graceful strength, wild beauty, predatory intelligence . . . These things are at the heart of every Nalini Singh Guild Hunter story - Grave Tells Nalini Singh continues to show her gift at compelling world-building and characterization - Romance Junkies show more Nalini Singh was born in Fiji and raised in New Zealand. She spent three years living and working in Japan, and travelling around Asia before returning to New Zealand now - although she's always plotting new trips. She has worked as a lawyer, a librarian, a candy factory general hand, a bank temp and an English teacher, not necessarily in that order. Some people might call that inconsistency, but she calls it grit for the writer's mill. They wake up not knowing how cascade, new heart and Cassandra's prophecy affected Elena and what she became.At the same time, Cascade is out of control with earthquakes, storms, floods and not letting some ancient tired people sleep... it's chaos all over the world and it's the first time where we see members of Cadre actually keeping their territory in more proactive way, and not just in name. World is in peril and there is no time for petty politics and usurping current territorial status- everyone is dealing with their own problems.But all of that is nothing compared to what's coming for all of them from China.It's death. And nobody is safe.The book starts a bit slow and it starts accelerating and suddenly so many things was happening I was gasping several times. I am trying to avoid spoilers before book release, but there are so many iconic moments!-Elena: Ok, I called it after finishing Archangel's Prophecy: Nalini had to change something about Elena to make her relevant in the sense of power for an upcoming war. When this immortal society is built upon hierarchy defined by power, why would I believe that heroine, who we are repeatedly told is in terms of power equal to newborn angel, be a force to be reckoned with, an important cog in state of the matter. Just because she is a main character or one of the most powerful players in the story loves her? Nah, Nalini always wrote her to be a warrior, his equal in everything that's happening and when it comes to war, we needed to see that, needed it to be more than just words. We needed it materialized in some way. Nalini found a way and it's very neat how it all comes together at the end. Elena's and Rafael's relationship is one of the strongest parts of this series and I appreciated the way Nalini handled this because it also makes sense and keeps the ballast of romance part: powerwise, they are not even close in their respective positions. Raphael is a true soldier here, a warrior but also strategic and kudos to Nalini for actually showing this. I loved everything about archangels in war. He creeps into overpowered trope a bit, but I was not bothered because it's Nalini's archangels. It's just how they roll-there is a scene where Calliane is talking about Nadiel, Raphael's father and it was so lovely and sad, and I kind of want to read their story now, tragic end and all and cry -You know who was immediately my favorite, first time I met him? Illium. I wanted more of him. Then Nalini teased all about Hummingbird, his ascension and I wanted his book. Then everything with Aodhan happened and I wanted his book more than anyone else's. Than this book happened and DEAR GOD WHY IS SHE TORTURING ME BECAUSE I NEED HIS BOOK. Illium is precious and must be protected by all means.-More. Archangel. Drama Queens. They are ridiculous and I love them. Look, with passing time they definitely develop a penchant for dramatic entrances and theatrical statements. I don't care if it's written somewhere or not, it's a cannon.-Thank you Nalini for writing a scene with Jason and Elena! :wipes away a tear: I know I'm an outlier in this, but Jason's book was one of my favorite. He is a rare bread in pnr, a quite, in the background, non-intrusive hero. I loved his book and I appreciate him more and more with each reread. -Michaela! Now what? -Favashi! And Africa! Now what? -Aodhan. I had a needling feeling first time we met a certain character she is going to be paired with Aodhan and how Nalini positioned it, I'd say it's definitely where we are going. I am not a fan of this idea at this point, but I'll wait and see. I am cool with everything, but I'm not objective when it comes to Bluebell and Sparkle. I just want their stories to be handled well.-Also, Ash being the queen of cryptic statements. -And honestly, we need to see more of female archangels in warrior gear: Neha can totally put Taylor Swift to shame with her costumes. You know when you finish a book and have a feeling like author wrote it specifically for you? I had this feeling. I like reading romance, but I was always obsessively focused on worldbuilding in Nalini's books and overreaching arc and this book delivers on so many levels. I want to know all about territorial disputes, about how this system with angels, vampires and humans supposed to work, what happens if Cadre is not in balance... Hell, I was expressing my doubts about Cascade showing signs of being sentient in my review of previous book- and Nalini directly addresses this!It's also a book finally dealing with conflict on a large scale and in such an interesting, rich setting: large scale thrives. Everything gets to the level of epic with memorable scenes and powerful resolution, but never losing what's familiar in her books: a sense of camaraderie, love and unity between her characters I came to care so much for. Easy 5+ for me!*****Look, Nalini sticks to established rules of her world, that's her thing. If she's going to throw these crazy powerful archangels, fickle Ancients* and sentient Cascade at Elena, and keep the already established fact that in terms of power she is still a baby angel and that it will take years for her to grow into form to fight other angels, we needed for something to happen. I expect her to transform into superbaddass angel and starts taking names on her own, so she'll finally have a body and strength that fits her will to protect those she love. **Archangels continue to dial upon the creepy when they want to deliver a message. Volcanoes and murmurations is just the level of drama I want and expect from them.-* this is from my review of previous book, and honestly, it says pretty much everything I think about the lot.more
